

What “BRAINSHi CDL System Recurring” Means

It's the same as the regular **BRAINSHi CDL System**, just:

- You **pay in installments (recurring payments)** instead of all at once
 - The **content, lessons, and tools are identical**
 - You still get:
 - The CDL study system
 - Practice tests
 - Learning style strategies (auditory, visual, hands-on)
 - Final resources + checklist + email extras
-

What's **NOT** Different

-  Not a shorter version
-  Not missing lessons
-  Not “basic” vs “premium”

 It's literally the same program—just split payments.

What to Watch For

This is where people mess up:

- They think paying over time = less commitment
- They don't finish the program
- They stop before the practice phase

 The payment plan doesn't change the outcome—your **consistency does**

Smart Move

If you're using the recurring version:

- Treat it like you already paid in full
- Stick to the **weekly system you built**
- Don't delay finishing modules just because payments are ongoing

Bottom Line

“Recurring” = **same system, different payment structure**

What actually determines if you pass:

- Using the strategies (elimination, skipping, pacing)
- Practicing consistently
- Not dropping off after finishing
